

Current Priorities — Updated 2026-03-15 3:30 AM

IMMEDIATELY ON NEXT SESSION

1. Set ANTHROPIC_API_KEY in Netlify env vars (Site config → Environment variables)
2. Create Supabase webhook: leads table → INSERT → POST to <https://blatantengagement.com/.netlify/functions/new-lead>
3. Test full flow: submit form → check Supabase → check Telegram → check lead's email for auto-reply
4. Test admin@blatantengagement.com email delivery
5. Rotate Telegram bot token and Resend API key (posted in conversation)

THIS WEEKEND (March 15-16)

6. Post Template A in 5 Facebook groups
7. Drop client_contacts table in Supabase (unnecessary)

THIS WEEK (March 17-21)

8. Write 5 blog posts via Gemini (prompts already created)
9. Build blog.blatantengagement.com subdomain + template
10. Publish blog posts with SEO schema markup
11. Land first BE client (\$500)
12. Buy laptop upgrade with first revenue
13. Walk into 10 St. John's businesses to pitch The Registry

NEXT WEEK (March 24-28)

14. Build Registry business onboarding dashboard
15. Build MCP server for The Registry
16. Apply for OpenAI Instant Checkout merchant program
17. Get one real AI-initiated transaction

MONTH 2 (April)

18. Demo The Registry to NYC advertising CEO friend
19. Prepare pitch materials (Claude chat, not Code)

20. Apply to YC / explore accelerators

21. Buy .ai domain

COMPLETED (March 13-15)

- ✓ The Registry: MVP live with discovery API + ACP checkout endpoints
- ✓ The Registry: End-to-end Stripe payment test passing
- ✓ The Registry: Landing page with waitlist form
- ✓ The Registry: AI discoverability (.well-known manifests, robots.txt, OpenAPI spec, JSON-LD)
- ✓ BE: Site live at blatantengagement.com
- ✓ BE: Contact form working → Supabase leads table
- ✓ BE: GA4 installed via GTM
- ✓ BE: Meta Pixel installed via GTM
- ✓ BE: Facebook Business Page created
- ✓ BE: Resend domain verified for hello@blatantengagement.com
- ✓ BE: Telegram bot @blatantengagebot created
- ✓ BE: Auto-reply Netlify Function deployed (needs API key + webhook to activate)
- ✓ BE: Marketing plan + client workflow + reply templates docs created
- ✓ BE: Facebook post templates ready
- ✓ Claude Code: ECC cherry-pick with cost tracking + compaction hooks

STEALTH RULES

- Tell nobody about The Registry concept
- Keep GitHub repo private
